CONTENTS OF VOLUME 37

Number 1

X-ray powder diffraction data for wavellite — *Frank N. Blanchard* 1

Food habits and reproduction of the taillight shiner, *Notropis maculatus* (Hay), in Central Florida — *Mondell L. Beach* 5

Seasonal variation of physical oceanographic parameters on the Florida Middle Ground and their relation to zooplankton biomass on the West Florida Shelf — *Herbert M. Austin and James I. Jones* 16

The vegetation of Southern Florida — *Robert W. Long* 33

Light and electron microscope studies on the gametes of the green alga, *Caulerpa* (Chlorophyta, Siphonales) — *Colleen A. Lohr and Clinton J. Dawes* 45

Laurencia brongniartii (Rhodophyta-Rhodomelaceae) from Florida — *H. E. Hackett* 50

Observations on a sea urchin capturing a juvenile mullet — *R. Grant Gilmore and Robert H. Gore* 52

Growth and reproduction of *Echinaster echinophorus* — *John C. Ferguson* 57

Aquatic vascular plants of Lake Apopka, Florida — *T. Lloyd Chesnut and E. H. Barman, Jr.* 60

Number 2

Seasonality of fishes in a South Florida brackish canal — *Frederick W. Brockmann* 65

A new record of *Pipistrellus subflavus* from Florida — *James W. Hardin* 70

Clearing and staining larval fishes — *David Mook and J. Ross Wilcox* 71

Measurement of wind-driven currents in a lagoon — *W. K. Schneider, P. S. Dubbelday, and T. A. Nevin* 72

Behavioral responses to visual stimulation in the scallop (*Aequipecten irradians*) — *Jacqueline Ludel* 78

Some aspects of the hematology of *Clarius batrachus* (Linn.) — *James W. Ward and H. C. Davis* 91

Bacteria associated with sooty mold fungi on Central Florida citrus — *Robert N. Gennaro* 94

Occurrence of snook on the north shore of the Gulf of Mexico — *Nelson R. Cooley* 98

1971 Photoelectric observation of Beta Lyrae — *R. M. Williamon, T. H. Morgan, D. H. Martins, T. F. Collins, and H. R. Miller* 100

Tropical marine fishes from Pensacola, Florida — *Keitz Haburay, Robert W. Hastings, Doug DeVries, and Jim Massey* 105

Ecological and distributional notes on the freshwater fish of southern Florida — *James A. Kushlan and Thomas E. Lodge* 110

Number 3

The estuarine decapod crustaceans in Brevard County, Florida — *R. E. Grizzle* 129

Fish scales as seen by scanning electron microscopy — *Edward D. DeLamater and Walter R. Courtenay, Jr.* 141

Growth of microorganisms in phosphate slime — *Patricia R. Aston, R. J. Wodzinski and J. H. Ware* 150

Distributional notes on the birds of Cayman Brac — *Sebastian T. Patti, Daniel J. Rubenstein and Nancy Rubenstein* 155

Populations of bear, panther, alligator, and deer in the Florida Everglades — *Sanford D. Schemnitz* 157

Presence of *Azotobacter* in marine sand beaches — *Suzanne R. Wicks* 167

Eggs and hatchlings of the Florida Scrub Lizard — *John B. Iverson* 169

Florida Junior Academy of Sciences, Proceedings, 1974 Annual Meeting 173

Charter and Bylaws, Florida Academy of Sciences, Inc. 179

Number 4

ACADEMY SYMPOSIUM: Florida's Estuaries—Management or Mismanagement?

Introduction — *William H. Taft* 185

Biscayne Bay: Its environment and problems — *Martin A. Roessler and Gary L. Beardsley* 186

The Charlotte Harbor Estuarine System — *John L. Taylor* 205

Tampa Bay Estuarine System—a synopsis — *Joseph L. Simon* 217

Major features of the Apalachicola Bay System: physiography, biota, and resource management — *Robert J. Livingston, Richard L. Iverson, Robert H. Estabrook, Vernon E. Keys, and John Taylor, Jr.* 245

The future of scientific communications—Academies of Science — *Harvey A. Miller* 271
